21min 17sec... If I could have a machine here...Joe could get his computer and put some diodes, electrodes and other kind of odes on my head here where it come out of my brain as I set here and think on this Message. You'd have a message you'd never dreamed was possible to come out of a man out side of William Branham. You know I mean that, because in my mind all these things coming, it all comes together. Up here I can't seem to do it. Perhaps I can do it a little better than I think I can but I just can't do that...so...I want you to pray about that because that outer man I say can't take that beating it used to take and yet I'm willing to take a step of faith and I've had good encouragement too now because I've had my ????? test the other day and there's not one evidence of the Candida in any shape or form in my blood stream. So it's all cleaned up.

27min 17 sec... We want to pray continually and believe the Lord that, that Word as Paul said *worketh mightily in us*. You know brother Paul told us the Word of God is not bound. Many things in this life bind us as individuals but Paul said the Word is never bound and that's that life in that word that makes us free. I still maintain and I always will maintain that God has a true revelation which is the true mechanics and the life that gave the true mechanics gave that Word as a conduit to work through in the lives of the people. The receptacle, that would be the last receptacle that God had in mind was the person. So if we have God having a receptacle called the Word and the Word then is in a further receptacle which is a son of God, a daughter of God and that's where it ends. And then it brings forth the life that is there which is the life of God. And it brings forth that portion of the life that God wants manifested. None of us not all of us together would ever approximate God, there's no way. But altogether we will not just approximate; we will fulfill the destiny that God had in His own Word which He had in Himself and remember He stands behind His Word to perform it. In other words He literally lives, He exists to see that that Word is manifested and brought forth. So therefore the more we learn to get out of the way the better and the happier we're going to be. That's what it's pretty well all about.

33min... I didn't sleep too much last night I got to bed around eleven; I guess the first thing one thirty rolled by that was it. Till I went back to sleep again maybe one hour if I got that much, but I was able to think a lot of things and I was thinking things that I said last night and I wonder just did I say them just exactly right so you could apprehend them knowing some things you know often times we talk about them and you can say them in different ways like 'hey' that's opposite to what a person was saying...you know. Like I mentioned the other night...last night I mentioned before that how it is that these Pharisees you know they were of Cain they were of the serpent seed. Bible distinctly says *you're of your father the devil*. Now here they call Jesus of the devil. And here people claiming to be of the spirit of God and of the seed of God; and we can talk about that this morning not just at this minute here; calling God Himself in flesh the devil. Then what were they worshipping? See the church today is worshipping Satan, doesn't know it. What about those folk? In one place Jesus said, "*Well does Isaiah say*" ...he said "*that your lips are near but your hearts afar off*". And he said, "*In vain do you worship Me having for doctrine the traditions of men*". Now you see they were the worshippers of God. But what happened to them? Alright that's a group there that he could reach out and say alright I won't say that you're of the devil, I won't say that you're worshipping the devil but I will say this to you. You are worshipping Me but you don't even know Me. See Brother Branham distinctly said the truth...one time he said... paraphrasing the judgment of God on Israel. He said *the very God that you claim you worship, that God's going to destroy you*. So you got a group of people that definitely there's not a modicum of reality of Christianity about them. They worship Satan and don't even know their doing it, thinking it's God. Then there are those who worship God and they have a rightness toward Him but it's in vain because they have only the word of man. They don't have God's Word. So you see all things I think about when I there by myself most of the day...a lot of days and I know you think about them too. Because you're just the same as I am. You're looking at

these things all the time because this is where your life is. And you have to weigh one against the other and say what does it really mean many times; where is the definitive? And then you come back and you say well there's three kinds of believers; that's what it is. There's the believer, the make believer and the unbeliever. Now the make believer and the unbeliever are just really one and the same when it comes down to the final point. You know. There's two classes really but then there's that one class that has a division in there. But a real believer is a real believer period. Now amongst those real believers there's a great ...what you might call a difference, there's a great spread. Like brother Branham said you may be a dime like Lot, not a silver dollar like Abraham. That's a good way of putting it.

45min 40sec... I realize there are things in there...in the scripture that are Genesis and they swing right to Revelation. I've already shown you how that Brother Branham takes and he starts in one point and thoroughly confuses you because then he goes rapidly to a distant point and you say my heavens what is going on anyway. He's here and now we're way over here at least a thousands years later if not...heavens knows how many thousand years later. But what he's rapidly doing is quickly taking you from this point to showing you this is what you're looking at; what is over here. So I trust you understand that when we get back on the subject again.
