Bro. Lee Vayle

26 min... There's one thing that makes us spiritual and that is the Word of God received in faith believed. Knowing It, It knowing us. Standing with It no matter what the turmoil is, just believing that Word. That is what makes a spiritual people. And the Bible tells *if you live in the spirit walk in the spirit*, gives us all that hope and help.

34 min 10 sec... We had a good time in San Diego. But good times have to come to an end, though it could have been a little longer. I admit you had good weather back here, but nothing like was out there. However, that may be as it is, I don't think the spiritual climate's any too great out there. The spiritual climate here is far, far superior. We miss all you folks. I guess maybe that's not just guessing, but that is one of the reasons we come back a little earlier than what we might intended. Though we had two reasons to come back. One was to get a shot in the arm from the doctor which is for allergy, other is to get a shot in the arm from you which is faith and love. So now we (*are*) getting both. I got my shot in the arm now I'm going to get the shot in the heart as we go along here. It's going to be a good service the Lord's going to bless us together, build us up in the most holy faith, pile Word upon Word until the Holy Spirit having filled each Word and we being full of the Word as Brother Branham said, "*We'll be temples, statues unto the Living God*". Don't ever think otherwise.

Now you look at yourself and say, "*Hey look what a cruddy individual I am.*" I want to tell you something. The only reason we're that way is in the purpose of God. He caused us to bypass that Word body that cannot possibly sin; and you know one of the biggest victories in all the world is to believe the grace of God, looking beyond ourselves and believing what God said regardless of our self. Because faith is not of ourselves. It really isn't because faith is a revelation and revelation is of God, by the Holy Ghost. That's a tremendous tribute to God. Like Brother Branham said, *True humility is believing the Word.*" You know that? What a proud bunch of snobs we are this morning. That's right, actual proud snobs to think other than what God said. Like Brother Branham said, "*You ain't got a think coming.*"

43 min 34 sec... The human race is getting more and more decrepit. It was said by somebody; not Brother Branham. Brother Branham merely quoted. It was said many, many years ago that the human race would become wiser and weaker. And the immune systems are what are gone, even in children. Remember the hypothalamus is very large in children and we find as people grow older that almost entirely disappears yet that's a master gland when it comes to your immune system and I liken that to the Word of God. The defense system is down because the filters gone, the revealed Word. And we having the revealed Word, surely we can believe as never before especially for the children.

Personally I don't care what condition the world's in. Phooey on it I'm not interested in the world. I wouldn't care less if it blew up in smoke tomorrow. It's not going to of course because it's not ready yet. We're not ready to get out of here, I don't think. But we're getting there more rapidly. But the sweet Spirit of Christ coming into the church is the most important thing in the world. The gifts as it were Brother Branham said put on the shelf.

Remember it's '*as it were*' put on the shelf because as long as there's a true Bride there'll be a true gift of tongues. There'll be true gifts in the church. We're not looking for them. We're not too particularly interested because the age is over. The age of gifts is over. Pentecost is finished. But Brother Branham

said on the shelf as it were and that sweet Spirit of Christ come into the church and the sick healed. He always prayed may there not be one feeble one amongst us. That's a good prayer because that's the sign of the exodus.

45 min 45 sec...But anyway in spite of the fact, I feel great. Really! I love the Lord, feel the presence of God and I see a harvest. I see the omega reflection. The sowing of the Word when Moses stood there with that Pillar of Fire whirling. All Israel had to do was stand there and Moses just feed the Word out, just return to Moses, go back to God in a circle greater and greater like a cyclotron. That's going on right today at this moment whether you know it or not. That's right.

Our brothers and sisters that's departed are going to come back and stand here immortal. A sweep will go over the Bride and there's change. Now that's the truth whether you believe it or not. Doesn't matter if you believe it or not, it's going to happen anyway. It doesn't matter if I believe. It's going to happen anyway. I believe with Brother Branham *if we're not Bride there's a Bride out there somewhere*. And I wish I could say what he said but I'm not that good a fellow. I don't have that spirit. But we can have it. He said *"and by the grace of God we won't stand in her way."*

These are momentous times and this is just an announcement. The announcement is, the truth. Say, "Well, my memory's going.", you say. Praise the Lord that's a wonderful sign because you won't have that memory up there. You lost one memory when you bypassed your theophonic form. Praise the Lord...I wish...no Praise the Lord. Praise God we're going to lose these memories and get right in the circle of God. Isn't that nice? I know that sounds like idle words. Listen when Jesus came back glorified, it sounded like an idle dream to those people...idle words. But it caught fire. It's going to catch fire again. It's got to. I mean it's simply got to. You can't keep going this way. I can't. Nobody can. And we've seen a vindication, Right? Vindication.

49min...So I was talking about little children being healed. That's right. The sweet Spirit of Christ coming into the church, the sowing for the omega reflection. I stand here believing with all my heart that if this people here is not a people of God, I don't believe in any people of God anywhere. I got to believe that brother with all my heart. I got to believe that, I got to believe I'm one of them, I know I am. Now you might not know that but I know that. Of course we know for each other. Right? We know for each. So we thank God.

51min29sec...But you know He's the same yesterday today and forever. He hasn't changed. But you see there's a difference in the hour in which we live. The sweet Spirit of Christ coming into the church is what we're looking for. And it's here in this church to a degree and it will intensify with the Word of God because the love of God is shed abroad in our hearts by the Holy Ghost. And there's only one conduit of the Holy Ghost and that's the Word and there's only one conduit of the Word and that's you and me, that's what it is...living epistles.

So I'm preaching a little sermon this morning because Stan's going to preach... not trying to upstage him or anything else. But look, I've got to give you my pastoral thoughts; my understandings to help you because that's all that counts is what are we doing with each other and for each other. And I know the love of God's in this place. You don't have to sing songs about it, we know it is here. And it's not unique to us its lots of places. I went down to Jack Bell's. You can feel the love of God just filling the auditorium. You can feel the reality built in this Message brother/sister and it's something we've always said. It's not

something that you and I do. It's something that God is doing for us, to us, in us, and it's reaching and it's forming that cyclotron.

And you might not understood me last night but I told you the truth last night. I'm an edgy person and you're edgy. You got your differences, I got mine. People cross us, I cross them and look, it bugs us. And I've had my problems with some, I admit it and I got some right now. There's no doubt about it. I'm not going to stand here and lie to you...truth. But you know something? Something's happened with your love in your hearts. So in spite of myself, I can't help myself. There's something happened. If it's not happening in you, I'm sorry for you but it is happening in you or it couldn't happen in me. Couldn't do it. I want you to know that brother/sister. What I said last night and I'm telling you now, to me is what Brother Branham talked about, that's right. Just think of it. I don't discern any more I wouldn't even try wouldn't even dare. But I can tell you something right now in that little moment I stood looking at you any number of you could of been healed. That's right.

I'm not trying to pull a dramatic thing up here. Look you know me better than that brother/sister, you know me better than that. But you know what I'm talking about. You're not the same people you were a while ago and it's not this building, this building is nothing. This building doesn't mean a thing. It's just a place that God gave us, we can sit comfortably winter...summer...hear the Word. But the building that God made is in this building. And I want you to know that. If you're not perceptive enough and perhaps it's not your business to be perceptive, perhaps it's my business to be that. I want you to know that I know that you people have changed. And I know that I've changed and I know together we're coming to that place that the prophet wanted us to be. And it won't be too long till we get out of here. Now that's the best announcement of all, we'll get out of here. The Lord bless you.
