56 sec...So we are confirmed in our hearts tonight that we are the seed of the Lord; you must not ever doubt that you must not ever give up on that no matter what somebody might say or even some of your own thoughts invade your mind at times. Remember you put all your thoughts aside for the thoughts of the Lord. And eventually what God has sown as brother Branham said you have the proper fertilized soil you have the proper germatized seed all it needs is the sun and the rain and it'll bring forth.

16min 29sec...So I appreciate very much the position God has given us where people can come and worship Him and learn the Word and remember speaking that Word is very important. Most people know it's in the book of Malachi but did you know it's in the book of Deut...the first chapter. Oh yea, they got talking amongst themselves and they couldn't go in the promise land. Anybody tells you it's not important to talk this message, it's not important to talk this light, it's not important to come together and encourage each other; that man is antichrist. Not cause Lee Vayle says so, I'll go back and get my bible and read it if you want. I might read it tonight, I don't know because there's things in there that are interesting as we get into various topics.

17min 48sec...Never forget the Word is the conduit of the Holy Spirit...always that. And when you think; that Word is the conduit of the Holy Spirit, you know that that life in that Word will live according to that Word. And we also with that empowerment can live that Word. Now we're not going to be perfect there's only one perfect one. You and I will never become like the Redeemer no way shape and form. The best thing we can do is try day by day.

44min 35sec...You might not know it but you're going to come to the place we're going to be thrown right back on the Word of God and that's it. Live die sink swim. You're going to see it, mark my word. I'm in that stage in a sense of the word if God doesn't live up to His Word; doesn't matter what I think, doesn't matter what I think (blank space) not God, loves not God. But the greatest of all although I may try to impress you with my faith impress you with my love and various elements...there's nothing left but the Word. Now if that Word doesn't hold good, I tell you one thing...I'm not going to go where brother Branham is I'm not going to come back in the resurrections I'm not going to have any place at all in the new Jerusalem. I could just maybe hope I could come up in the second resurrection. See what I'm talking about. We're here for the word.

56min 20sec...You're at the ultimate, I've been telling you for a long time all the years I've been with you and you been with me we pointed to one thing, *the ultimate* and there's only one place to go that's to the ultimate word so you stay with what bro

Branham gave you and I can guarantee you one thing and that is you'll be in the resurrection you'll be here in the group standing here in immortaligy your little babies that'll are born , they'll be going with you. That's *thus saith the Lord* from the prophet. You don't have to worry about them you got a beautiful future.

1hr7min25sec...So the Lord bless you and just keep in mind now you have the living word, all the spiritual vitamins are there you are strong in the inner man though the outer man is perishing the inner man is being renewed day by day was caught right on camera , remember that picture? Like the death head, was caught right on camera what's going on the same as that was caught in camera ...oh man I feel so good I could just shout. It feels so good...it's scientific my brother my sister.

1hr 10min...It's good to see you all the Lord bless you and we trust it's worth your while coming out tonight ...get with us...study the word of the Lord and know the hour in which we live. To not only know the hour in which we live but as brother Branham said the spirit of God at this time make known to us the deep mysteries of the Lord. And you realize of course the deep mysteries of the Lord are those that are going to shake everybody off and we'll be seeing some of that tonight as we go into our studies because this is the hour in which the greatest darkness and the greatest light come to the earth.

1hr 11min 50sec... So we have a great and marvelous message today that is absolutely un-compliable and I don't want anyone to ever think that this age is compliable in type, that is the type of Moses going into the promise land; that is only a type. Today we have reality so we thank God for that. And we just trust our message tonight will help you to understand even more thoroughly than ever before why it is that you are a unique people and why we are unique. Not trying to be different as brother Branham said but we are different. Just as plain as a.b.c...you don't have my fingernails, you're glad you don't because they split and everything else. You don't have my hair and thank God you have more than I got. The point is we're different! And that's all there is to it. Now maintain your difference. If you're a virgin people unto God be a virgin people unto God. Just don't fool with anything else. Everything is in this laser light that cuts to such perfection that truth becomes absolute and evil becomes absolute and we become 100% separated unto Almighty God. We are a separated people.
