

Comments #46*9/8/93-11/7/93, Bro. Lee Vayle*

18min 30sec...I simply can't understand where people are coming from when they just want to..."Well, let's just all get together and be nice and it's alright. It's alright, you know we're all believing the same Message."

Well I want to ask you a question. In the time of the crossover can anybody tell me that Moses, Joshua, Caleb, those under 20, Korah, Dathan, Abiram; ate any other manna than one common manna? Well there's your answer. If you're not willing to see the price that's paid for this Word; total separation from unbelief, to fight every ounce of your own inner energy that wants to lead you astray, to dedicate yourself thoroughly to it and stand up; I think there's a lot of misunderstanding about this Word at the end time. I don't believe people really believe it's going to carry over eight people in the ark. They think Noah had either bunk beds in there stretched inside, outside and over the top or double beds which ever you want to prefer. In my books there's either 8 bunks or 4 double beds and that's all.

19min 58sec... A peculiar people...the word 'peculiar' in the Greek is a circle with a little dot in the middle which means 'utterly surrounded' like Job was by God. It doesn't mean their nuttier than fruit cakes. The point of the matter is the only people with the same mind are those who actually understand the Word of the hour.

28min... But you can't open a box of cornflakes...really that's the truth. You cannot open a page of paper. You cannot turn anywhere but you will see every indication if it isn't over, my God I hope it is. I don't want to...well I don't think I'll have to because I'm on the way out. But you young people, what are you facing but your flesh rotting on your bones? What are you facing in life on this earth? We'll talk about it as we hit Genesis this morning. But you know it's terribly serious. If there ever was a time for youth to remember its Creator, it's now.

It doesn't say remember your God that you worship. Remember now thy Creator. Huh? Right! They've gone to atheism. They can't prove anything. When it comes to evolution the Darwinian Theory and all, the Ingersol's and all these flat headed idiots that think they know something, although Darwin did repent. You know the fact is one and one no longer make two, they hypothesize. How would you like to be in the place where the churches are this morning? They hypothesize. They got a synthetic religion. You know something? It's true, that nylon doesn't burn but it sure melts. A little a gooey lump. Anything synthetic is a bad, bad situation. Remember now thy Creator. Right? So this is the hour to begin opening our minds to the Creator. That's what Brother Branham...did you know that Brother Branham was a real naturalist. He wasn't exactly a Solomon. But he was a most entertaining person to be around. I remember one time we took a little kind of walk in the woods...it wasn't much of a woods. Telephone poles were there and he described the different wires how they worked. And then he talked about the bears and different things in the woods. And he was a great, what you might call a 'great appreciator' of the Creator. And you know it's a lack of that appreciation that makes men go against creation.

And when you go against creation, you come to the place of exalted insanity. Like king Knuth... wouldn't he that dumb Dane that they said 'why you're so great you can control the universe'. He went down and he told the tide to stop rolling in. I'd like to have been there. It's recorded; we'll see it on the big screen of God if that really happened. He never stopped anything. You can't even stop a mosquito sneaking up behind you. Huh? Remember now thy Creator.

39min 25sec (Bro. Vayle speaking at Eden Keller's baptism) And the Judge says, "Listen, all you got to do is believe the vindicated Word, be baptized in the Name of the Lord Jesus Christ; you don't have one

problem about sins any longer. And because of that, remember in Hebrews 10 the spirit answers to the blood. What happens? The doors open for the Holy Ghost to come in. The laying on of hands in water as far as I'm concerned is exactly all that is necessary; although hands themselves are not necessary to receive either the Holy Ghost or healing. It's something that God does. It's been promised us it's been confirmed by the Word, demonstrated by vindication and all Eden has to do is believe positively. If the sins are taken care of, (and they are!) just can't doubt that and the Holy Spirit can come into my life. Now the Holy Spirit coming into your life is marvelous and you'll notice a little bit here in the book of Ephesians and it's the 5th chapter which is the great chapter on the Bride.

And it tells you here now, those that are baptized in water and have opened the door for the Holy Spirit and as Brother Branham said you do two things God's got to do the third which is repent and be baptized. You just receive the Holy Spirit without evidence, without sensation, nothing...but then watch what happens in the 18th verse. *And be not drunk with wine wherein is excess...*but the Greek says, *but ye being filled with the spirit...* Word upon Word because the conduit of the Holy Spirit is the Word.

Now watch, *speaking to yourselves in psalms, in hymns, in spiritual songs, singing making and melody in your heart to the Lord, giving thanks always for all things unto God, even the Father in the name of the Lord Jesus Christ and submitting yourselves to that Word.* Now that tells you right there what Brother Branham said piling Word upon Word until it's not just a baptism with the Holy Ghost, it's a person truly filled all the way with the Spirit walking and moving and living in the Spirit. Now watch what you do... *speaking to yourselves in psalms and hymns and spiritual songs, singing and making melody in your heart to the Lord giving thanks always for all things unto God who is your Father in the Name of Jesus.* Now that's the secret.

You say, "Will it work? Well if it doesn't work, why is it in the Bible? Say "Well, will it work for me?" If it doesn't then God's a liar. So always the integrity of God is at stake and this is what always blows my mind. How can people doubt a prophet who comes in the Name of the Lord; and God backs that man up?

45min 52sec...We all know that attrition took place and always does take place every age. Those of us that are going on, when we're gone there's nobody going to take our places. It can't be because the seed runs out. What holds for this church, I don't know. Brother Branham said before the rapture they'd be closing doors. What are you going to do then? You'll have to take your tapes out and play them.

49min...We fortify ourselves with prayer as Brother Branham said, *prayer is never...a people like us attempting to have God change His mind. But prayer is to get us to change our mind.* Also some of you don't have a back ground of what was called 'the old power ministry'. And the 'old power ministry' of course is the Pentecostal attitude and outlook in prayer and you just pound away until you get God to do something for you and that's dangerous. The psalms are full of the fact where God did great things for His people...God just did them. And then people wanted their way. Like they said *can God prepare a table in the wildernesses?* So they began hammering away at God to send them quail. Now he didn't want them to eat quail and leeks and garlic's and things He wanted them to have manna. Oh they pounded away until they got what they wanted. The Bible said *'He sent leanness to their souls'*.

Now that tells what I've been preaching for a long time, that if we don't handle the unrighteous mammon, we'll never handle the spiritual. So that's why preachers have a grave yard; money, popularity, women. People think that Brother Branham lied that these things don't run their courses. I got news for you. What is all our studies about in Spoken Word's The Original Seed, two complete series and End Time Seed Sign. So remember that, look around you, the flowers are dying. They're not nearly as pretty as they once were. There's a few little bits of color but the vines are sort of spreading themselves out there. You know that the use of the vine is over. The beauty that was once there is gone but it's a seed time. Seed time again getting

ready for a harvest. Everything in the earth shall pass away but there's one thing that will not pass away and that is that Word of God That's right. Now it's got to be the Word for the season. That's right. So we have a Word for this season which will not pass away and we're talking now of individuals in whom is that Word. So we trust we understand these things that we're dedicated to them.

52min 43sec... I trust we never come to the place where this Word becomes ho-hum, becomes prosaic(*common place, dull*), becomes such that we can...oh...take it or leave it. If we ever get to the place where we fail to have that cry in our hearts - I want those doors to open! I want to come together. I won't miss an opportunity.

If you're not in that place you're in bad shape this morning. You need to examine your hearts and you need to pray until that fullness of that Spirit is there that this is everything. I trust this church is a church that is in that position. If it isn't, well it's just another manifestation of seed. You know I hang tough and I preach tough but look; I didn't write the Bible. I'm not responsible for any vindication. I'm only responsible for one thing and that is to preach it. Paul himself said if I preach this gospel which I know to be vindicated and become disobedient, I myself could become a castaway, disapproved. And in every house there are vessels that are approved unto honor and there are those that are not approved unto honor.

Where are we? Brother Branham said give yourself the Word test. So that's what these meetings are always about. You say, "Brother Vayle, will you ever change your theme?" Why? Why? Why do I want to tell my body to be happy with a dish of macaroni, not even bother putting any cheese on it or anything else, and tell my body, "Hey! Body you respond with perfect health. And the body says, "No way, no way." There's nothing there. The body said you give me what my body needs and I'll respond.

You think any dead are going to come out of the graves except they had the Word for their hour, stand approved before God? You think that you and I are going to stand here while they come out if there isn't something in these bodies that respond. Resurrection isn't just giving you and me a body, no, no, no. There's going to be a resurrection of people who don't want the body they get and they're going to go to the lake of fire and suffer in that body. That's true. Now people don't want to hear preaching like this. I got news for you, like it or lump it. Live, die, sink, swim. Sovereignty of God. Blessed are they who hear, who's eyes have seen and they understand this hour in which we live and they place themselves on the side where God is. God is always with His Word.

So remember that as we go to preaching this morning. Just saves me giving a more elaborate introduction to the message, catch us up on some thoughts to help you to perceive and a perceiving which is understanding and blessed are you because you come to that place where even greater men have wanted to come and couldn't come. Where the very prophets have brought this Word forth, could not stand in this hour. I want to tell you something they'll be standing here seeing it fulfilled as Brother Branham said, "You think of that person you love, (that would be a godly person of course) someone like Brother Branham; (He) said, "You begin thinking of them sweet terms of love, sweet spirit fills the building because that person's spirit is drawing nigh." Strange for a man to say things like that. Strange but true. I have to believe it. My former teaching would deny it. Say, "Well, you're communing with the saints. You're a lousy spiritualist." Hold it. Vindication my brother/sister does not have a denial. [You say],"Well that changes my concept." That's what repentance is!

1hr 10min 32sec... Brother Branham preached a sermon on Presumption. The world's presuming everything, but we don't presume we know the truth. We're not walking in presumption. He said presumption is when a man wants to walk in a territory that's unfamiliar or actually forbidden. He said we're fools. Angels fear to tread...men rush in with hob nailed boots. Man has not learned to tread softly before God
