

**Comments #48**

Bro. Lee Vayle, 2/6/94-3/6/94

**4min 30 sec...**Over here in Ephesians the 6<sup>th</sup> chapter and in the 4<sup>th</sup> verse, here's where they're talking "*children obey your parents in the Lord.*" Now there's no obedience of a child that is granted the parents except in the Lord. Now that tells you that parents can never give a child a command that's outside the Word of God. Now think it over. Just think it over. It's not what you and I want done as parents it's what God wants done. Now that may be a difficult precept but it would not be given if Brother Branham said God would never give a command or ask for something that He Himself was not behind. He said, "If God asks for it to be done it would be done by God Himself." So therefore God is in this.

Now he said, "*Honor thy father and thy mother which is the first commandment with promise.*" Now there again they'll understand that the child...knowing that the parents are acting in the place of the Lord Jesus Christ. And standing with that Word which is good for that child and that Word alone is Light. Then he should honor those parents. "*That it may be well with him and thou mayest live long in the earth*"

When you look at so many people dying so young and so many young people committing suicide, you have to realize something went wrong with them in these verses right here. Somebody failed somewhere. Say what you want. I don't care what the moralists say. I don't care what the school board says. I don't care what the government says. I don't care what the preachers say. I'm not interested. This is Thus Saith the Lord, this is it. Something went wrong here. Because they don't have long life and you'll notice, that for a while longer life was given to people because the gospel was getting clearer and clearer and clearer and better and getting greater and greater and the illumination stronger. But you notice it's decreasing now and you'll notice also that anybody that lives longer does not have life quality.

**43min...**I was just rethinking this morning in the book of Isaiah and we could read a lot in that 28 chapter. It's just loaded for today. It's one of those portions of scriptures got 29 verses 28 chapters and it's absolutely loaded. But starting with verse 22 it says now *therefore be ye not mockers lest your bands be made strong.* In other words if you mock it's the law of speaking and magnifying and making greater what you say until your confession actually controls you...right. (pause on tape) The belly shall be satisfied with what he says, because there's a confession comes out goes in your ears goes down inside. And it doesn't mean you'll be satisfied the minute you say it. But there'll come a time when it becomes a part of you and then Brother Branham said, "God will make your body obey your confession."

Now it works in the negative and the scripture calls them *bands*. Now you can take a band and you can band something together you bind it like the binding of the tares but I don't like that thought. I like the fact of what it might be saying you bind your confession which is a bunch of leaves made into a bunch of books and you put a wire around it and you get a...you know a lever and go (*Bro Vayle makes a noise like pressing something*) and hey, that's got it.

You do the same thing when you arrest a person. You want to make sure you don't beat them over the head like they tried to kill Rodney King. All they had to do is just grab him and take hand cuffs and put them behind his back and put them on his feet and then cinch him up. Hey he isn't going to do any harm to anybody ain't even going to hurt himself. Well I think of bands in that way. And so the Bible warns us here *be not mockers*. If you become a mocker, pretty soon that's going to control you and you end up as a mocker. That's why the Bible says *don't sit in the seat of the scornful* and *don't mock*...you get in there... see.

Now if anybody mocks this last day Message I'm going to tell you something. He suddenly thinks, "Well maybe if their right and I'm wrong I can change." Uh- uh! You say, "Brother Vayle you're mean." I've been accused of that. I am not a mean person. If I was able to, I'd take a snipper and snip him loose. I'd be disobeying God, trying to ruin God's program. I don't have power to do it anyway. I'm not authorized.

He said now *"be therefore not mockers lest your bands be made strong"* listen now *"for I have heard from the Lord God of host a consumption even determined upon the whole earth."* What's that?... T.B... right? T.B. cannot be controlled. For years they said, *"Ah, we got rid of it."* Only to find out the T.B. went from the original spot, to another spot. I had T.B. when I was 14. How old was I when it went to my pituitary gland? Except for divine healing I wouldn't be here this morning. What was one of the great signs of aids? T.B. Try to prove the Word of God wrong. Fools, fools, fools so called scientist. Let Dan Rather and Connie Chung take care of this and the great Mrs. Sawyer. Oh! They'll find a way around it, they're going to face it very soon. You say, "Brother Vayle you're vindictive." Never said I wasn't. Caught you that time didn't I. You thought I was going to get out of it... slightly, slightly.

*Give ye ear and hear my voice and hearken and hear my speech.* Now listen...illustration. *Doth the plowman plow all day to sow? Doth he open and break the clods of his ground?* Well sure he's going to sow. What you plow, you are plowing to sow to reap. Now that plowing is a tough job; breaks up the clods. Then you take the harrow you know and that's got mean spikes in it, and then you take the disks. Ohh that's got sharp blades! Then you take if you really make the ground fine and another instrument and I seen it years ago I don't think they use it any more but it's like a rotor (makes noises of rotor turning). Man! All right. Liken that to what's going on in this day how people do it.

*"When he hath made plain the face there of doth he not cast abroad the fitches and scatter the cumin and cast in the principle wheat and the appointed barley and the rye in their place. For his God doth instruct him to discretion and doth teach him."* Says listen here, I'm going to tell you people something. You as farmers and all Israel as farmers; everybody knows the ground; everybody knows sowing and reaping; everybody knows what it is to get grain and to eat.

And he said right here, listen, God is making an illustration He's getting His ground completely ready for the sowing of the end time Word. And there are those the Word will never go to. Now he said if you understand this that you sow for a harvest, you want to reap, didn't God give you that smarts in the first place. And don't you think God's doing the same thing? You are God's husbandry.

I want you to notice something. God wants people. He's going to reap a Bride. And believe me He has sown wheat and notice it's called the *principle wheat*. They're the elect Bride. There is a foolish virgin out there. There's attendants coming in. But God's special sowing, the special care getting ready a people that's prepared. Now that wheat was already prepared. The wheat itself was ready for the sowing in that ground. God's Word was always here. But the harvest ground wasn't broken, nice to know brother sister.

No matter where you turn in the Bible, Genesis to Revelation, you can find this Message because let me tell you the Word of God is a seed for one purpose, to bring it into a harvest. And the Original Seed that was sown comes forth in the last day in human beings. God manifest in human flesh in a prophet to bring that same revealed Word to bring a Bride without spot and without wrinkle. Fit for the queen.
