Bro. Lee Vayle

16min 45sec... There's a great, great mystery attached to the rebirth and yet we can know that we are born again, we can know. They said; brother Branham can you know you're born again. He said, can a woman have a baby and not know it. Unless she's anesthetized she will know it. How are you going to know? There's only one way you will know...that is you accept fully 100% within your heart the vindicated Word of Almighty God and nothing else matters. The time will come when you can only think of bible doctrine in the terms of what William Branham taught us. Nothing else, the minute something comes in, you say forget it...hold it...good bye. Shuck it off. It will shuck off anyway.

42min...And we'll go to Hebrews 12th chapter and you can see I'm on solid bible ground. Verse 12...*wherefore lift the hands which hang down and the feeble knees...you don't lift them up, you help them, you know...and make straight paths for you feet lest that which is lain be turned out of the way but let it rather be healed, follow peace with all men and holiness...*and so on. See the bible tells you right there and if you read further; *Looking diligently lest many fail of the grace of God; lest any root of bitterness springing up trouble you, and there by many be defiled.*

Now we got church order to take care of those things but there's also spirit that comes within the church where you stand truly, sweetly, spiritually with that which is right and you don't bend and if you take sides and issues, if you take sides and issues... you take your side and issue with Jesus.
